

## Pack Care

Osprey recommends Nikwax® products for pack care. For complete instructions on cleaning your pack, visit [www.ospreypacks.com/PackTech/PackCare](http://www.ospreypacks.com/PackTech/PackCare)

Your pack is an extremely durable product built for years of use and abuse. However, some basic procedures will ensure that your pack holds up optimally.

- After each trip be sure to clean out your pack thoroughly.
- If it's wet, hang it to dry.
- Loosen all the straps.
- Wash your pack every now and then. (Do not immerse travel packs with our High Road™ Wheeled Chassis.)

## Pack Your Pack

Loading your pack correctly optimizes comfort while you are carrying it. For complete information visit: [www.ospreypacks.com/PackTech/HowToPackYourPack](http://www.ospreypacks.com/PackTech/HowToPackYourPack)

## SHARED FEATURES

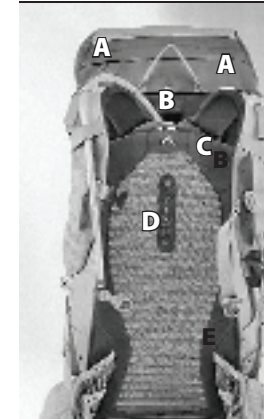

### AirScape™ Suspension

The five largest Kestrel packs (68L, 58L, 48L, 38L and 32L) feature a full peripheral LightWire™ frame for supreme carry and performance.

### AirScape™ Backpanel

Every Kestrel pack features the AirScape™ backpanel – a mesh covered 5MM ridge molded foam backpanel providing excellent ventilation, comfort and load support.

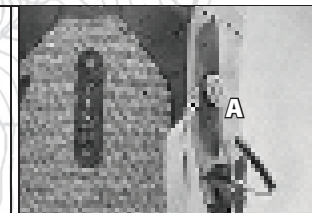

### Torso Adjustable Harness

Two torso adjustable sizes provide exceptional fit and adjustability. To adjust torso sizing: **A** Loosen load lifter straps at top of harness, **B** locate arrow icon and slide a hand between backpanel and harness to separate the hook and loop closure, **C** slide harness into position using arrows as a guide, **D** press firmly to re-engage closure.

### Three-Position Adjustable Sternum Strap

To adjust, rotate oval sternum buckle **A** into horizontal position and push through opening. Reverse to insert into desired opening and return tab to vertical position. Repeat on opposing strap.

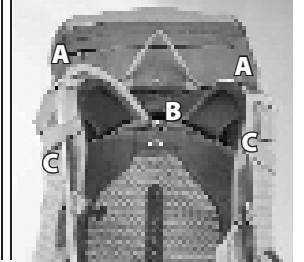

### Hipbelt Webbing Strap Retention

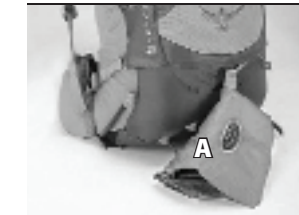

A sewn-in elastic strap near the buckle functions as a strap keeper system for excess hipbelt webbing. Fold and tuck extra webbing through the loop as needed to retain.

## External Hydration Compartment

Located between the harness and main body on the backpanel is an exterior access hydration compartment. **A** Locate the H2O icon and loosen load lifter straps. **B** Place reservoir in the compartment using sewn-in hanger to hold upright. **C** Route the hose through the elastic routers on the left or right harness as preferred.

## Integrated Raincover

To operate, **A** locate the raincover icon near the base of the pack and unzip raincover compartment, pull raincover from compartment and slip over top and bottom of pack; **B** tension into place using the cord lock at the bottom of the raincover. Reverse this process to return raincover to compartment. Note: To remove the raincover, entirely undo the webbing which attaches to the cord loop.

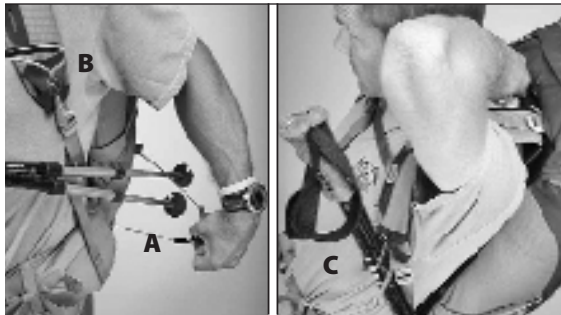

## Reverse StraightJacket™ Compression System

This reverse strap system **A** serves a dual purpose allowing you to compress loads for a better, more balanced carry while providing retention straps for versatile side carry options. Compression can be engaged across the front of the pack using opposing female buckles to compress partial loads and secure unusual items such as snowshoes etc.

[www.ospreypacks.com](http://www.ospreypacks.com)

## Stow On The Go™ Attachment System

To operate: shorten trekking poles to a safe, manageable size, **A** locate the elasticized cord loop spanning the side pocket on the left side of pack then pull loop away from the side pocket and insert the basket end of your poles. **B** On the left harness strap locate the trekking pole icon, **C** engage the cord lock beneath the hypalon patch with your thumb and forefinger and pull up on the cord to open, place pole handles in the loop and tighten with the cord lock to secure. Reverse to remove.

## Zippered Hipbelt Pockets

These spacious pockets feature articulated, zippered openings for easy one-hand usage and convenient storage of needed items.

## Pockets

The Kestrel Series features front and side stretch woven, nylon spun mesh pockets, adding capacity and convenience.

## Tool Attachment

Working in conjunction with dual ice ax loops, these pass-through style bungee cords can be slid into any of three or four positions (depending upon model) and secured using a hook and loop system. The clove-hitch style bungee allows you to loop handles or poles quickly, a cord lock tightens or loosens the loop.

## UNIQUE FEATURES

### Kestrel 68

This is a top loading pack with a fixed top pocket featuring thicker components and a beefed-up LightWire™ alloy framing system designed to accommodate larger loads.

- 1 Fixed, dual compartment top pocket with underlid mesh pocket
- 2 Zippered sleeping bag/dual access compartment with internal divider
- 3 Removable sleeping pad straps
- 4 Vertical dual zippered side pockets
- 5 Mesh covered die-cut slotted EVA foam hipbelt with zippered pockets

#### Key Fabrics

420D Nylon Pack Cloth, 210D X 330D Nylon Shadow Box, Nylon Spun Mesh

Size	Capacity	Weight
M/L	4200 CU.IN. / 68 L	4 LB 2 oz / 1.86 KG
S/M	4000 CU.IN. / 65 L	3 LB 15 oz / 1.78 KG

### Kestrel 58

This is a top loading pack with a fixed top pocket featuring thicker components and a beefed-up LightWire™ alloy framing system designed to accommodate larger loads.

- 1 Fixed, dual compartment top pocket with underlid mesh pocket
- 2 Zippered sleeping bag/dual access compartment with internal divider
- 3 Removable sleeping pad straps
- 4 Vertical dual zippered side pockets
- 5 Mesh covered die-cut slotted EVA foam hipbelt with zippered pockets

#### Key Fabrics

420D Nylon Pack Cloth, 210D X 330D Nylon Shadow Box, Nylon Spun Mesh

Size	Capacity	Weight
M/L	3600 CU.IN. / 58 L	3 LB 14 oz / 1.76 KG
S/M	3400 CU.IN. / 55 L	3 LB 11 oz / 1.67 KG

### Kestrel 48

This is a top loading pack with a fixed top pocket featuring the AirScape™ backpanel and LightWire™ alloy framing system.

- 1 Fixed, dual compartment top pocket with underlid mesh pocket
- 2 Zippered sleeping bag/dual access compartment with internal divider
- 3 Removable sleeping pad straps
- 4 Vertical dual zippered side pockets
- 5 Mesh covered die-cut slotted EVA foam hipbelt with zippered pockets

#### Key Fabrics

420D Nylon Pack Cloth, 210D X 330D Nylon Shadow Box, Nylon Spun Mesh

Size	Capacity	Weight
M/L	2900 CU.IN. / 48 L	3 LB 10 oz / 1.64 KG
S/M	2800 CU.IN. / 45 L	3 LB 7 oz / 1.56 KG

### Kestrel 38

This is a top loading pack with a fixed top pocket featuring the AirScape™ backpanel and LightWire™ alloy framing system.

- 1 Fixed, dual compartment top pocket with underlid mesh pocket
- 2 Removable sleeping pad straps
- 3 Zippered sleeping bag/dual access compartment with internal divider
- 4 Mesh covered die-cut slotted EVA foam hipbelt

#### Key Fabrics

420D Nylon Pack Cloth, 210D X 330D Nylon Shadow Box, Nylon Spun Mesh

Size	Capacity	Weight
M/L	2300 CU.IN. / 38 L	3 LB 6 oz / 1.53 KG
S/M	2200 CU.IN. / 35 L	3 LB 3 oz / 1.46 KG

### Kestrel 32

This is a panel loading pack featuring the AirScape™ backpanel and LightWire™ alloy framing system.

- 1 Top slash pocket
- 2 Dual zippered panel loading access
- 3 Fabric mesh hipbelt

#### Key Fabrics
