L.L. Bean Apex messenger bag

Rated number one of the 26 messenger bags evaluated, the **L.L. Bean Apex** (\$50; five colors) excelled in our durability tests and had all the features you could want, including a comfortable padded strap, interior and exterior organizer pockets, a cushioned laptop section, a top grab handle, and a water-bottle pouch. For a slightly smaller option from Bean, check out the **Heatwave** (\$40; 16 colors and patterns).

The lightweight, petite **Ecogear Fjord** (\$30; in two colors) is made of sturdy fabric produced from recycled water bottles.

**Osprey's FlapJill Courier and FlapJack Courier** (\$79; three colors each) ranked high with testers. The smaller **Jill** is super-portable, though it holds less gear than (and isn't quite as

durable as) the Jack bag.
