

## Mountain Sports + Living

Winter 2011

Mountain Gear: Ultimate Set-Up FreeRide

Featuring: The Kode 30

Circulation: 125,000

Readership: 550,000

**Pack:** There's nothing more frustrating than getting whacked in the back of the head by a wayward board. Osprey's Kode 30L keeps a board secure thanks to thick straps, beefy buckles, and a tacky, rubber-like material where the edges contact the pack for no-slip hold. Dueling hip-belt pockets, hideaway helmet carry, back-panel access, and separate dry and wet avy-gear pockets round out this detail-oriented pack. \$140; [ospreypacks.com](http://ospreypacks.com)
