Readership: 43,575

*Unboxed is your monthly guide to the latest product for your racks and shelves. This edition, we pulled together at-once items and those otherwise available in May and June between buying seasons. See something that's not in your shop? Contact info follows each item. Happy store stocking.*

### OSPREY

#### **Osprey Zealot 16**

The Zealot is Osprey's new freeride and all-mountain pack. Featuring the company's signature AirScape Suspension, Zealot's ridge-molded foam creates a lightweight, supportive and ventilated backpanel. The low-profile design keeps the pack close to the back for balance while the Biostretch ventilated harness, made with perforated EVA foam, provides a soft, irritation-free contact surface. Design features like the removable roll-out tool pouch keep essentials organized and out of the dirt. Also available is the Zealot 10, \$129.
