

## Mountain Flyer Magazine

Issue 24 - 2012

Featuring: Escapist 30

Circulation: 17,000

Readership: 51,000

### Osprey | Escapist 30

**\$129 | [www.OspreyPacks.com](http://www.OspreyPacks.com)**

Osprey's roots are in backpacking, so it's no surprise the company built a solid long-hauler with all the fit and features you need to balance the load. A ventilated back panel, compression straps, stretch-fit harness, 30 liters of pockets and compartments, super-duty construction and a rain cover help this pack meet the demands of multi-day bike travel. After a four-day slog on the Arizona Trail this spring, I'm happy to report that this pack was the right choice for hauling water, maps, tools and even a small sleeping bag. —K. Smith
