### Back to Sports: The Best Backpacks for Your Favorite Fall Activities

Why should kids have all the fun? In honor of back-to-school shopping (we know, it's everywhere!), we've put together a grown-up list of our favorite new fitness-related carry-alls. Instead of textbooks and lunch boxes, these babies haul everything from hydration bladders to laptops to yoga mats, all while staying put and keeping you comfortable while you move. No matter what sport you're into this season, we've got your back(pack) right here.

#### **For biking**

The Osprey Momentum 26 (also available in 34 liters) is a great [commuter](#) accessory, with space for shoes and a change of clothes and a padded compartment for your laptop. Plus, the breathable back panel will ensure you don't show up to work all sweaty. \$129, [ospreypacks.com](http://ospreypacks.com)
