### OSPREY

When it comes to innovation and craftsmanship in a versatile youth-oriented pack, Osprey is difficult to beat. The Sprint Series brings Osprey's legacy of deluxe custom fit to youth backpacks. Combining ergonomically correct fit, technical features with Osprey design, quality and durability, these packs will provide years of comfortable trail performance for young hikers. Four packs make up the line: the *Ace 48*, MSRP \$149, the *Jib 35*, MSRP \$129, oriented to hiking; and the *Zip*, MSRP \$59, and *Jet*, MSRP \$49, for campus. Shared features of the *Ace* and *Jib* include: under-lid zippered pocket; top loading with drawstring closure; stretch woven front and side pockets; dual daisy chains; integrated raincover; reflective logo imprinting; top and bottom side compression straps; ice tool loop with bungee tool tie-offs; zippered fabric hipbelt pockets and sewn-in sleeping pad straps. They are made with 600D polyester and 420D pack cloth. The customizable Sprint harness features torso adjustability, mesh covered perforated foam shoulder straps, adjustable sternum strap with rescue whistle buckle and energy gel pocket. Packs also feature the Lightwire suspension system, backpad, and pass-through spacer mesh adjustable hipbelt.
