Summer Essentials for Adventure Travel

By Jedd Ferris

Whether you're heading to another side of the Blue Ridge or beyond the border, these travel essentials will come in handy on your next trip.

4. Osprey Sojourn 25

Adventure luggage is a real thing. The Osprey Sojourn will roll through the airport like a standard travel piece, but when you suddenly find yourself hitchhiking along a dirt road, unzip the suspension system and throw it on your back. The wheeled pack features nearly 3,600 cubic inches of space, so you'll have plenty of room to organize essentials, especially in the open main compartment. You can also attach an Osprey Daylite when you need additional space or a convenient daypack for side trips. **\$289; ospreypacks.com**
