Slimmer and smaller

Lighter gear, shorter trips and sport-specific designs shrink pack sizes

>>The Rev Series (MSRPs $70-$130) from **Osprey** fuels trail runners and ultra endurance racers with the new Hydraulics LT reservoir, a design that uses two built-in baffles to reduce barreling and sloshing, in 1.5-, 6-, 12-, 18-, and 24-liter (3) packs. The series includes the weather-protective DigiFlip media pocket, a clear pocket that is touch screen compatible.
