## Best Tech Friendly Pack: Osprey Portal Series Cyber Pack

The Cyber Pack looks like the love child of a waterproof iPad case and commuter pack. Unzip the front panel of the Cyber Pack and tuck it away, and you can access your tablet through Osprey's "portal" without taking the tablet out of the pack. The pack's "powerhouse cord organizer" looks a lot like any dopp kit that you would bring traveling with you, but I appreciate Osprey pushing the point of placing all of your cords in one place. Available now. (\$129)
