## Gearing Up: Spring/Summer Eye Candy

A look at the latest women-specific mountain biking gear and accessories

Is there a dirt-lovin' lady in your life? (Or maybe you are that dirt-lovin' lady!) I speak from experience when I say she wants to be spoiled with the latest mountain biking gear and accessories. Don't know where to start? It can be difficult to know just what she needs or wants. That's where we come in. We've put together a list of ideas we think your favorite mountain biking woman will fall in love with. Use this guide to get her the perfect Mother's Day, birthday or "just because" present.

New this season, Osprey has introduced a women-specific multi-sport pack called the Tempest. Take it with you on your next mountain bike ride, trail run or day hike. Featuring a women's-specific mesh-covered harness and hipbelt, a ventilated back panel, front slash pocket, helmet attachment, inside panel zippered mesh pocket, two zippered hipbelt pockets, external hydration sleeve (reservoir sold separately), and more. Available in grey, magenta and green. MSRP: \$90
