### Osprey Shuttle: Rolling Monolith

This bag arrived, so huge, it's like a monolith to gear and travel being discovered. I placed it outside for filtered-light photos this morning. After the pug furiously barked at it, apparently concerned an alien intruder was in the yard, I thought the toddlers next door could pretend it was a spaceship from planet Osprey too!

You can stuff your courage AND all your gear in this hauler before your next big trip to race and ride. The Shuttle 32" / 110L is available from Amazon and a retailer near you for \$299.95
