Changes afoot in Friedrichshafen

**Osprey**  
2014 upgrades to the Variant Series of packs include the addition of the FlapJacket closure system for weather-protected lidless use, a simplified shove-it pocket and a new fabric. The redesigned dual ice-tool holster includes bungee tool tie-offs and lower-side release buckles. The expedition suspension and thermoformed, contoured backpanel ensures a high level of comfort and load transfer with minimal snow and ice buildup on the user's back. For the alpine minimalist, the Variant can be stripped down thanks to the removable top lid, removable frame and framesheet and removable hip belt.
