### PACKS FOR AVALANCHES, SIDECOUNTRY, AND THE STREETS

It doesn't matter how sweet your gear is if you don't have a functional way to carry it. Style doesn't hurt, and neither do safety features like avalanche airbags and accessible pockets for

rescue equipment. Whether you have a modest or sizeable load, shoulder it with a few of this season's top new packs.

OSPREY  
KODE 42 (\$220) (\$1,150 ABS)  
[ospreypacks.com](http://ospreypacks.com)

Strap your board on vertically or horizontally and get hiking. The Kode allows you to rock the ABS Vario Base Unit or zip it off entirely.
