## Backpacking Gear List

What's in my backpack on overnight adventures? Here's my backpacking gear list for multi-day and overnight hikes in the backcountry.

## Backpack & Navigation

### Backpack

I've hiked with an older-model Osprey Aether 70 for the past ten years, and love its roomy storage capacity, comfort and durability. This summer, I upgraded to the recently-updated [Osprey Aether 60 backpack](#), though, and love the newer pack's padding, suspension and easy-access storage. I also pack an [Osprey UL Raincover](#) to keep my backpack and gear dry in case of rain.

My favorite features? Read them in my full [Osprey Aether 60 review](#).
