Osprey Pixel Port: The Osprey Pixel Port has a suspended laptop sleeve, multiple compartments, and an integrated organizational pocket. A tablet sleeve with a see-through, touchscreen compatible window works so well that you might not even bother removing it from the Pixel Port.

Leon's Take: "At first glance, I thought the touchscreen feature might prove gimmicky, but I was sold on my first business trip. It quickly became my everyday pack and it looks like new despite more than a year of daily use and double-duty as my carry-on bag whenever I fly." (\$119.99) [More Info/Buy Now](#)
