**Osprey Packs**, a leader in creating top-quality, high-performance, innovative packs to comfortably and efficiently carry gear, is pleased to introduce the Skarab and Skimmer series for Spring/Summer 2016. These gender specific, hiking hydration packs are equipped with key features in a straightforward design suitable for a range of users from beginner to more seasoned adventurers.

"Comfortable, durable, feature-rich and at a great price point, Skarab/Skimmer will be the first of many Osprey hydration packs for those looking to discover new trails and experiences," said Erik Hamerschlag, Product Line Manager, Osprey Packs. "Three different volume sizes provide carry options for anything from a quick day hike with only water and the bare essentials to longer hikes with water and the ability to carry everything you need."

Skarab (Men's)/Skimmer (Women's)

Carry Features:

- Suspension: Foam framesheet with center stiffener allows dynamic body movement while it spreads load across the entire backpanel.
- Backpanel: Mesh covered die cut foam provides comfort and ventilation.
- Biostretch™ Harness: Mesh covered die cut foam provides an active and contouring fit and ventilation while rolled spacer mesh over the shoulders delivers a comfortable fit.
- Spacer Mesh Hipbelt: Spacer mesh hipbelt for lightweight but breathable, comfortable carry. Note: Skarab 18 and Skimmer 16 utilize a removable 20mm webbing hipbelt

Available in:

SKARAB 32 | SKIMMER 30 – MSRP: \$120

SKARAB 24 | SKIMMER 22 – MSRP: \$100

SKARAB 18 | SKIMMER 16 – MSRP: \$80
