Holiday Gear Guide: Luggage

Osprey Ultralight Roll and Padded Organizers (\$30/\$25)

When you're traveling by bike, it's advantageous to keep your gear and personal items as organized as possible. The Osprey Ultralight Roll Organizer is great for your personal items. It unrolls and can be hung by its hook allowing access to two mesh zippered pockets (one of which contains an attached mirror), two zippered micro pockets, and the main cargo compartment. The Roll's dimensions are 15 x 6 x 3 in., it's constructed of 40D ripstop nylon, and, unburdened, weighs 4.4 oz.

The Padded Organizer can also be used for personal items but I've been using it to store my ever-growing collection of "necessary" items like my iPod, a spare charger, a light, a mini pump, spare tube, mini speaker, bottle opener, corkscrew ... you get the gist. It features a padded main cargo compartment with an internal zippered pocket and two unzipped mini pockets; Straightjacket compression clip closures; and a webbed handle. The Padded Organizer's dimensions are 6 x 8 x 5 in., it's constructed of 40D ripstop nylon, and, unburdened, weighs 2.5 oz. —MD
