Friday we covered our [stocking stuffers](#), and yesterday we took a look at some gifts that would go well [under the tree](#).

We'll wrap up our gift suggestions today with some bigger items that will look good in the garage.

Tasha Heilweil

[Osprey Raven 10](#) \$120

The Raven combines great features with a women's specific fit to make an amazingly functional hydration pack.

Osprey Raven 10

Osprey Shuttle 32

Jonathan Ellsworth

[Osprey Shuttle 32](#)

I've used the Osprey Shuttle 32 for nearly five years and dragged it through too many airports, bus stations, and train terminals to count. I've also thrown it into the back of far too many trucks to count, and the Shuttle 32 has proven to be very durable, light weight, and basically perfect. It's the bag I always use on our 3-4 week southern hemisphere ski review trips, and we don't exactly pack light on those trips.

Osprey isn't offering the Shuttle 32 anymore, so you now have to choose between the slightly smaller Shuttle 30 or the much larger Shuttle 36. But the good news is that it also means that the Shuttle 32 can currently be found at a nice discount.
