Osprey Sojourn

A rolling bag with a built in backpack harness, the Sojourn is the ultimate adventure travel solution. The carry system stores away when you don't need it and when you do, it's actually comfortable — Osprey uses the same suspension as in its dedicated backpacks. And when you're loading it into a bus, boat, or rickshaw, a multitude of handles lets you sling it where you need it. In 45, 60 and 80 liter sizes. [[\\$300-\\$340](#); [ospreypacks.com](#)]
