Cortez, CO – Osprey Packs, Inc., a leader in creating top-quality, high-performance, innovative packs to comfortably and efficiently carry gear, is pleased to announce that for the first time, the company will be attending Sea Otter Classic to showcase their Raptor Hydraulics Series.

Osprey invites Sea Otter attendees to stop by the Osprey booth (#242) April 15-18 to participate in activities throughout the day including complimentary pack sizing and fitting as well as gear giveaways.

“Osprey’s entry into the bike market was a natural evolution of our brand,” said Gareth Martins, marketing director of Osprey. “Our presence at Sea Otter demonstrates our commitment to this market and our passion to develop innovation solutions for outdoor exploration of all kinds.”

With the Raptor Hydraulics Series, Osprey provides an innovative on-the-go hydration solution unmatched in the marketplace. The proprietary construction provides superior fit, allows for dynamic movement, creates an efficient system for inserting and removing the reservoir and properly compresses the reservoir for consistent water delivery to reduce barreling and sloshing. The Raptor Series, designed with the mountain biker in mind, features innovative suspension and an ergonomic back panel to provide superb bike riding comfort. Bike-specific pocketing along with a proprietary LidLock™ system keeps gear organized.
