Summer Camp: Best Packs

Featuring: The Raptor 10

URL: <http://tinyurl.com/23rqblo>

It's the season to get out and roam in the high country and this roundup of the best gear we took to the trail will help you explore the hills.

Mountain Biking
Osprey Raptor 10

This is quite simply the perfect day-to-day pack for hitting the trails. At 10 liters, it's compact enough for a quick spin on the neighborhood trails yet roomy enough for a full-day adventure. Big Plus: The lid latch carrier makes it easy to attach your helmet to the pack with no bouncing around.
