Travel Bag Review – Episode 20

Featuring: Vector 28

I enjoyed dragging this pack through the airports around Denver and Salt Lake City. It has great big rollers, strong material and zippers. Its very light. It has many inside compartments to hold all you goods and there is NO space wasted. The frame is very tough. Ospreys high quality backpacks are carried into there Vector Travel Series. They make 3 sizes/colors. I reviewed the pepper color.
