# TRAVEL GEAR

By Lenore Greiner and Nellie Huang

There's been a quiet revolution going on in travel gear, as evident from high tech backpacks, travel clothing innovations and even in the underwear department. New fabric technologies let us travel sweat-free, bug-free, sunburn-free, and even odor-free. We may never have to do laundry again. Here's a look at some of the most innovative travel gear in the market.

## Osprey Aether 70 Backpack

Packing in plenty of cool new features, the Aether 70 clearly reflects the latest innovations in backpacks. Our favorite feature is the IsoForm Custom Moldable hip belt, built with dual-density foam that can be molded to fit your hips.

- » IsoForm harness with spacer mesh for better airflow during long treks
- » Wide mouthed bottom compartment
- » ErgoPull hipbelt closure relieves hipbone pressure
- » Trekking pole attachment and side straps for all types of gear
- » Suitable for long treks and backpacking trips

The Osprey Aether 70 comes in dusk blue, magma and tundra, retailing for US\$259 at REI.
