Outdoor Retailer Show

Featuring: Karve Series

URL: <http://tinyurl.com/7gyzlkp>

It was another great year the Outdoor Retailer Show. I saw a lot of fun products this year. One of the biggest trends I saw was pack-ability.

There were loads of awesome packs at the show to be seen. Including the Karve from Osprey. This is designed for winter sports. It has a really sleek, slim design that allows for easy lift riding and dynamic riding. It has storage for shovels, probes, and offers convenient carry options for boards and skis. It comes in three sizes, these are the sizes in storage capacity in liters, 16 L 11 L and 6 L. <http://www.ospreypacks.com/>
