When it comes to customizing fit, the Atmos (for men) and Aura (for women) reign—dial in the shoulder height and hipbelt to the millimetre with Velcro adjustments. The pack loads from the top, with a zip-access bottom partition, four exterior pockets (two on the hipbelt), a kangaroo pouch for stashing on the fly, and a generous top compartment. The overall design is very breezy, with perforated shoulder padding and a mesh trampoline to separate your back from the pack.
