PRODUCT PICKS

TOPEAK
Booth 216
The Topeak Prestalite is an easy-moving hollow foot station with 3-inch wheels and six angled foot components containing 40 sets of professional shop-quality bike tools securely stored in high-density inserts. The wheelbase can be easily pulled out to extend the working base for further stability. A push-button lift handle opens tool trays for quick and easy repairs.
Suggested retail: \$299.95

POC SPORTS
Booth 163
The Carbon helmet combines low weight with shock-resistant construction. It pairs a thick hard shell exterior with a dual-density foam that yields on the outside, softer on the inside to provide a progressive stop of the head upon impact.
Suggested retail: \$120

WHEELS MANUFACTURING
Booth 148
The new Wheels Manufacturing PF30 hollows hollow bottom a machined 6061 aluminum shell and proprietary dual-toe radial Enduro bearings. It's available in standard, angular contact or ceramic sealed bearing versions. All have versions include special "anti-creak" seals and are fully serviceable. The angular contact and ceramic bearing models carry a one-year warranty.
Suggested retail: \$49-\$100 (\$49 for angular contact bearing model shown)

ZOIC
Booth 144
Aimed at gravel riders, ZOICs are lightweight, constructed with quick-drying Biomax stretch fabric and feature a 16-inch inseam and perforated mesh with built-in moisture wicking. ZOICs are fully serviceable using in a lot for ZOIC. The shorts can be purchased with or without a liner and chamois.
Suggested retail: \$69-\$99 (See Other special price: \$49)

KMC/CONTINENTAL CHAIN CO.
Booth 140
The XTR11 D.I.C. (Diamond-Like Coating) 11-speed chain has a special finish to provide more lubrication on the chain's surface to reduce friction. It features hollow pins and hollow inner and outer plates, and every chain comes with KMC's InChains Flowthrough SR for easy installation and maintenance. The D.I.C. Chain has been equipped with X2i technology, making weight by 27 percent and increasing durability by 10 percent.
Suggested retail: \$140

OSPREY
Booth 100
The Radial Series of packs provides ventilated comfort for the active commuter with Osprey's signature AirSpeed back panel. The Radial series also features a panel loader design, a large main compartment with internal document sleeve, mesh organization pocket as well as top zip access to the laptop and tablet compartments. Additional organizational pockets include a front-panel U-lock stretch pocket, stretch woven side pockets and a zippered front-panel stash pocket with key clip.
Suggested retail: \$159-\$169

OSPREY
