Osprey luggage

OspreyPacks.com • Contrail 28-inch: \$339;
Contrail Courier: \$119

The Contrail 28-inch takes luggage to an entirely new level. Inside you'll find the removable Flight-Locker, which has two front sections for small clothing items, a larger rear section, and a middle section for shirts and pants, and the entire piece can be slipped onto a hanger. Also included is a removable, hangable laundry bag for soiled or wet clothing. The suitcase itself has two external zippered pockets at the top and front for small, frequently used items, access to the main part of the bag with dual lockable zippers, four internal zippered sections, padded carry handles on the top and side, and a retractable pull handle. The bag measures 28 by 14 by 12 inches.

The Contrail Courier is perfect if you've managed to fill your suitcase and still have a few items left to pack. Of course, there's an adjustable shoulder strap, but the main feature is the Handle-It attachment flap. There's no slipping and sliding once you slide the flap onto the retractable handle of your wheeled luggage. The Courier has a padded sleeve to accommodate a 15.4-inch laptop and one for a tablet or electronic reader, two side zip pockets, a top zipper with lockable sliders, and an internal zip pocket with a document sleeve. Happy trails.
