11 Badass Mountain Gear Items

Osprey Atmos 65 Backpack

Any true mountain man needs the right pack, and this Osprey model has all the capacity of its more rustic, aluminum-framed counterparts while still looking damn good. It can hold enough gear for true backcountry adventures, but with an interior structure that makes it comfortable to carry while ventilating your back. Plus, it's available in eye-catching red, blue or grey. \$240,
