Osprey Streamlines Exos Lightweight Packs

Cortez, Colo. – For Spring 2014, Osprey Packs is introducing a remade version of the company's Exos Series lightweight packs, first launched in 2008.

The refined packs bring the company's existing Superlight AirSpeed suspension with a newly-designed harness and hipbelt called Exoform. The new Exos line will be available in three weights and two colors. The Exos-38 for super light backpacking and day hiking will sell for \$160, while the Exos 48, for backpacking and thru-hiking will sell for \$190. The Exos 58 Superlight backpacking/through hiking pack will sell for \$220.

Each comes in Basalt Black or Pacific Blue.
