Every year, our team of experts torture-tests thousands of new products. The good stuff makes it into these pages throughout the year. Only the best makes it onto this list.

### The Double-Duty Carry-On

\$299; [ospreypacks.com](http://ospreypacks.com)

Though it may look like an ordinary piece of rolling luggage, the **Osprey Ozone Convertible 22"** is a transformer. The 50-liter carry-on converts to an excursion-ready pack, complete with adjustable harness and removable hip belt; it even has a zip-off 15-liter daypack for smaller trips. Several shape-shifting bags debuted this year, but the Ozone is the best for the always-on-the-go.
