EXPERT ADVICE

Standout Gear from Winter Outdoor Retailer Show

Osprey Waypoint 80

8 of 11

◀ PREV

NEXT ▶

The new Osprey Waypoint is a streamlined, modern conversion pack made for mobility. It has Osprey's top-of-the-line suspension for days when you're shouldering your load, as well as a new zip-away padded harness and hip belt. A large torso-adjustment range allows a great fit for most sizes.

Bonus: a passport-size secret zip security pocket hidden behind the harness. The removable daypack has Osprey's innovative Port Window tablet access – touch-sensitive film means you never need to remove your tablet from your pack to use it.

[5 lbs 10 oz, \$280; ospreypacks.com]
