## Product Innovation: Snow Gear From Outdoor Retailer 2014

### Osprey Kode Race 18 Pack

**Price:** \$100

**Launch:** Fall '14

Osprey has redesigned their entire Kode ski pack line for 2014. We especially like the Kode Race 18 for fast, lightweight tours and randonee racing. Everything is designed for ease-of-use, and most importantly, access without taking your pack off. A cable and hook system lets you throw your skis on board without worry. Side pockets are designed to hold skins and crampons securely when not in use. The best feature though, is the Biostretch Wrap harness, which allows the pack to conform to your movements and feel like more of a race vest than backpack.
