S/S' 15 Product Market Showcase

Osprey
The fourth-generation Atmos AG (pictured) for men and Aura AG for women feature light, body-contouring Anti-Gravity Suspension that allows the wearer to move as if they're not wearing a pack, says Osprey. Combined with custom fit capability, the Atmos AG and Aura AG feature top-load access to main compartment, removable floating top lid, upper and lower compression straps, dual zippered hipbelt pockets and a lowered zippered sleeping bag compartment. SRPs range from \$230 to \$260.
