Osprey Stratos 26

The recipient of the Osprey Stratos 26 will thank you for years to come: This is as close to the perfect daypack as it gets. The top-loading Stratos carries everything you throw at it up to about 25 or so pounds, thanks to an arched suspension frame that not only stabilizes the load but allows airflow behind the back. At 26 liters, there's enough room for a winter's day or even an ultralight summer overnight, and with a myriad of straps and attachment points, you can lash any afterthoughts. It has two water bottle pockets (and a huge hydration pouch inside) and double zippered pockets on the waist belt for quick access to your camera, phone, or munchies.

Get It: \$130; ospreypacks.com
