2. Osprey Raven & Raptor Hydration Packs

The Raven series is the sister to Osprey's Raptor assortment of [premium mountain biking hydration packs](#). Sized and tailored for a woman's body, the Raven builds on the reputation for outstanding fit and stability established with the Raptor line. Highly detailed and uniquely designed, these packs will turn a lot of heads while tearing up the trail. Key features include the AirScape™ backpanel, BioStretch™ harness as well as a full hipbelt to keep the pack stable and transfer the weight effectively. The packs are equipped with a 3L Hydraulics reservoir and Osprey's new hydration sleeve design with direct access zip for fast loading. Thoughtful details include a LidLock™ clip to quickly secure a
