9. BACKPACK

OSPREY ATMOS AG 65 \$260

WHY IT WON: Simply put, this is the most innovative pack design we have seen in years. Osprey combined ventilation with support in a cush, mesh back panel that contours to the body. That system works with shoulder and hip straps that tighten up together, making for a perfect, easy fit.

WHERE WE TOOK IT: Extended backpacking trips to Cedar Mesa, Utah, canyons with the family and peak-bagging and fly-fishing missions in Rocky Mountain National Park.
