The best women's mountain bikes, jerseys, jewelry, shoes, and more

### Osprey Women's Verve 3 Pack

1 / 8

The Verve pack from Osprey has been around for a while, but never before in such a small size. The Verve 3 is the thinnest, most compact version of the pack yet, and will be ideal for women looking to **hydrate** on shorter mountain bike rides. Women's design is prominent in the belt and chest construction, and the Verve 3's slim profile means that it won't get in the way as you're shredding trails. —Molly Hurford
