Holiday Gifts for the Outdoors & Travel

Written by The Adventure Post Editors on November 25, 2015

As you ramp up your holiday shopping, check out our list of gear and clothing that will put a smile on the face of travelers and folks who love the outdoors.

Osprey — Ozone Convertible

When you're dragging a large, rolling duffel through an airport, it helps if you can shoulder your smaller carryon. That's why we like convertible packs like the 22-liter Ozone, which has a full backpack harness that stashes away in a zippered compartment. Even with a harness, this pack is pretty nimble, thanks to the lightweight frame and the 210-denier Nylon fabric. For travel, the bag includes a zip-off daypack (with a padded laptop compartment), plus lots of organizational pockets in the main bag, including a zippered top pocket where you can stash a boarding pass and other things you need to keep handy. \$230
